100% IVF refund

If you don't have a baby

In partnership with

Take the uncertainty out of IVF

Undergoing IVF treatment can be a stressful time, both personally and financially. Access Fertility helps to take the uncertainty out of IVF by offering fixed price treatment with a money-back guarantee.

Access Fertility IVF Refund Programmes include multiple IVF cycles with the added security of a refund if you do not have a baby. You can have up to three fresh cycles and an unlimited number of frozen embryo transfers, all for a fixed fee. Depending on the programme you select you would be entitled to up to a 100% refund of your fee if you do not have a baby.

Our Multi-Cycle Programme (two IVF cycles) does not include a refund but gives you the benefit of a significant discount compared to standard IVF costs.

Offering multiple cycles means we can provide our treatment programmes at a significant discount compared to standard pay-as-you-go IVF options.

Access Fertility treatment programmes mean you can start your IVF treatment confident that you have a plan in place.
